CP<sup>5</sup>series

Hip. Smart. Chic. At a price you can afford.

Who says you can't have it all ?

The CP5 series offers simplicity with a purpose.

A self-regulating chair, CP5 intuitively responds to a wide range of body weights and sizes without the need for manual adjustments. Whether to complement the décor of an executive suite or a team workspace, the CP5 series fits any environment and any purpose.

So Comfortable  
Don't Want To Stand Up.

Patent "body-activated motion" that automatically adjusts to the user. Expertly designed and manufactured, CP5 is intuitive, user-adaptive, and uniquely suited for today's flexible working environments.

# 01

**1. Variable back of Resistance**  
Depending on the user's body position, rollers in the seat and back respond with more or less resistance to recline, promoting healthy motion and lower back support

Combining modern curves with clean lines, the CP5 conveys an air of understated sophistication – while its specifically calibrated geometry does the work of balancing your body's motion in any position, Simplicity, with a purpose.

CP<sup>5</sup> series

02

**2. Body-Activated Motion**

The calibrated geometry that balances your body's motion with the chair's recline and allows for infinite dwell along the travel path

03

**3. PolyFlex Back Tailored slat**

lengths, spacing, and attenuation in the back membranes work in concert to provide firm or soft support, where and as needed.

AUTOMATIC TITLING  
BACK CUSHION,  
NO MATTER HOW  
WEIGHT YOU HAVE.

04

**4. Swing Arm**

Provides the chair's unique aesthetic flair while serving the critical purpose of bringing the seat and back into synchronized harmony

05

**5. Pneumatic Height lever**

The only lever on the CP5 Series chair is this lever or paddle which activates the pneumatic cylinder for chair height adjustment.

06

**6. Front Edge Waterfall Flex**

Created with a variable flex technology that adjusts to each user's thigh length and range of motion needs, the waterfall edge adjusts seat depth.

CP5 Certificate of Compliance

### GREENGUARD

GREENGUARD Certification affirms that representative samples of the products tested meet the criteria of the referenced standards and the requirements of the specific certification program. Certification testing is conducted according to a consistent, defined protocol. It does not measure emissions under usage conditions other than those defined in the protocol and does not address potential environmental impact other than chemical emissions.

Sitting is a dynamic activity, best address by a chair that recognizes a person's natural tendency to readjust throughout the day. CP5's intelligent design address the multitude of positions and postures people assume while sitting. The patent – pending user driven technology uses a unique geometry that links the seat and back movement around an ergonomically positioned hip pivot point, resulting in a highly comfortable chair – whatever your position.
